

A-C ELECTRIC

Experience Modification Rates

“The basis of the experience modification shall be a comparison of the actual losses charged to an employer during the experience period, with the losses which would be expected for an average employer reporting the same exposures in each classification. The comparison shall contain actuarial refinements designed to mitigate the effects of losses which may be considered catastrophic or of doubtful statistical significance, due consideration being given to the volume of the employer’s experience.” WAC-296-17-855

EMR
